Resource requirements for "Illinois Regional Learning Communities" will be determined by the number of participants and resources identified that participating members require to have the Illinois Regional Learning Community meet participants needs.

Initial payment for credentialed attendees shall be \$195/\$225 (first person, member/nonmember*) and \$95 (second person, member/nonmember*) at the Regional Learning Communities Launch (March 26, 2010). This estimate for the 12-month commitment will be finalized as part of the process based on the participation level and identified resource requirements of Illinois' Regional Learning Community. While the actual 12-month participation fees are to be determined, the remaining costs for the first 12-months are estimated to be \$750/\$950 (member/nonmember*).
