"Reset, Reimagine, Reshape"

CBHA's Annual Winter Conference will take place virtually on December 7-8, 2020. The pandemic has changed the way we lead our lives, including how we gather. The conference will be held LIVE on an online, customized conference platform.

The theme of this year's conference is "Reset, Reimagine, Reshape." Have access to the experience anywhere you are, LIVE on the day, and on demand for a full month after.

Join us for engaging keynotes and panel discussions, lively workshops and opportunities to virtually network with colleagues and friends from across the state. Through this virtual experience, CBHA will showcase the resilience and adaptability of our industry, agencies, and individuals during COVID-19 and hold important conversations on what behavioral healthcare should be in the 21st Century, among other dynamic content.

Registration Information Coming Soon!
