

Safety Protocols for the 2021 CBHA Conference

For the safety of everyone:

- **Vaccination.** All attendees, exhibitors and vendors must be fully-vaccinated against COVID-19. Prior to admission, all everyone will be asked to:
 - Self-attest that they are fully vaccinated* against COVID-19 when they register;
 - Self-attest that they are (COVID-19) symptom-free on both days of the conference; and,
 - Consent to having their temperature checked (via forehead scan) on both days of the conference. Anyone with a temperature above 100.4 will be unable to attend the event.
- **Mask Policy**
 - CBHA will follow all state, local and federal guidelines when it comes to COVID-19 protections. Currently, that means masking for all attendees unless eating or drinking. As these guidelines may be updated from time-to-time based on the current pandemic situation, CBHA will communicate any changes to attendees.
- **After the Event**
 - As part of the COVID-19 liability waiver, any attendee at the CBHA 2021 Annual Conference has a duty to report a COVID-19 diagnosis that occurs within 14 days of attending the event. Should you receive a positive COVID-19 diagnosis within that timeframe, **please inform CBHA Staff, Nicole Thompson, nthompson@cbha.net** so we can do the necessary follow-up.
